THE DAY IN THE STOCK MARKET.

Friday, Nov. 14-p. m. sponsive to every and any wild rumor that may be started by a grand manipulator through a casual but calculated remark dropped to his morning bootblack. To-day the air was full of damaging reports that came from an unknown source. Among them was one to the effect that somewhere in South America there was a large bank in trouble, and that its failure would disturb London and be reflected on the New-York Stock Exchange. Inasmuch as it has been claimed and repeated time and again that London had been forced to sell all of its Americans-" the only marketable securities it had "-the question is not inopportune: "Is London running an American printing press that turns out over-issues of American stocks?" The last settlement day in Americans developed the fact that the speculative interest then was on the "short" side. We are not disputing the fact that these rumors of disaster anywhere, even in the centre of Africa, do not affect the market for securities; on the contrary, we assert that they do so to an unwarrantable measure. Where there was one man about Wall Street a month ago that foresaw the speculative conditions now ruling, there now are one hundred that predict the worst is yet

about Wall Street a month ago that foresaw the speculative conditions now ruling, there now are one hundred that predict the worst is yet to come. It is by the use of such fresh-water ducks that the operators who have made the present conditions will be able to gather unto themselves the salvage of all the wrecks they have occasioned. Yet there is a steady increase of outside buying, which having been invited by the large declines, does not heed the common talk or gossip of the Street. Whether prices do or do not find a lower level than that yet reached, it is recognized by them that generally market values are below merits, and that after the late large declines the lasting rebound to merits and above is not far distant.

The day's market was strongly inclined toward lower valuations: that was the feature at the opening, and it continued to be the feature till the close, despite numerous reactions. North American, stock was less a feature than it was yesterday, but it was the strongest of all stocks; from 12a14 it declined to 11, and closed at 11 1-4, against 11 1-8 last evening. Northern Pacific preferred stock was the weakest in figures. The reported transactions in it were over 196,600 shares, and its price, through frequent fluctuations, fell from 60 1-4—against 59 7-8 last evening—to 57a57 1-2. Of course this decline, if permanent, reduces the value of North American, which closed 1-8 per cent higher than last evening. There is no necessity of repeating here the many theories that were circulated in the Street, on the one side of continued liquidation, and on the other side of the formation of a "pool" in the stock composed of present holders, who sell out their individual accounts at the Stock Exchange, while the pool purchases all of that and such other selling as such large "liquidations" induce. It is a pretty romance that unquestionably will receive due attention in the sensational columns of other papers. What the readers of The Tribune are mostly interested in is, not the manipulating, but the meri

WHAT WAS DONE IN BONDS. A small lot of Government 4 per cents found a purchaser at 123-1 per cent below the last sale, and because of it the asking prices for the 4 per cents were reduced from 124 to 123. Other issues were steady at quotations which are as follows:

U.S. 42s 1891, reg. 108 ... U.S. cur.6a 1895 ... 118 ... U.S. 42s 1891, reg. 109 ... U.S. cur.6a 1895 ... 118 ... U.S. 42s 1891, reg. 109 ... U.S. cur.6a 1895 ... 118 ... U.S. 43s 1907, reg. 122 123 U.S. cur.6a 1898 ... 118 ... Stamped ... 119 120 U.S. cur.6a 1898 ... 121 ... U.S. 4a 1907, cou ... 122 123 U.S. cur.6a 1899 ... 124 ... U.S. damped ... 118 120 U.S. cal.3-65 1894 199

State issues were entirely neglected. Of city bank stocks Hanover sold (16) at 351, Republic (5) at 190, Tradesmen's (278) at 107a105, and Western National (170) at 100.

The general bond market was active and weak in spots. Atchison, Topeka and Santa Fe 4s were off 11-4 per cent at 80 1-2, and the incomes were off 11-2 at 50, probably because the company's report of gross carnings for the first week in November shows a gain of nearly 10 per cent. Rock Island 5s declined from 100 1-2 to 98 1-8. Louisville, New-Albany and Chicago consols sold off to 90. Missouri, Kansas and Texas 4s were off to 74 1-2475, and Philadelphia and Reading 4s sold down to 77. New-York, Lake Frie and Western second 6s, with 3 per cent interest due December 1, fell to 98 1-2. There are offered to investors chances for ploking up bargains such as do not occur more frequently than once in five years. Every issue named has been offered down by speculators for effect on the share market, and all the issues, except perhaps Atchison incomes, are certain to pay their interest for all time. Ohio Southern general 4s fell off to 40, and recovered to 45 at 5. Philadelphia and Reading first incomes were down to 54 at the close, the seconds to 39, and the thirds to 29 3-4. Northern Pacific consol 5s carly were firm, at about 79, but closed at 78. This issue at this figure should be a bargain for permanent investment. Richmond and West Point collateral rust 5s declined to 65. Reference is made to har full report of bond sales.

MONEY AND EXCHANGE.

MONEY AND EXCHANGE.

MONEY AND EXCHANGE.

The Treasury to-day purchased 165,000 ounces of fine silver at \$1.0335 \( \) \$81.0350, making the total purchases for the month 2.982,899 ounces. The renewals of money loans this morning were generally at \$\pi\$ 10 per cent, but after 1:30 o'clock new business was done at 6\pi 5 per cent, closing at 5 per cent; and this is a Friday.

The Clearing House statement to-day was as follows: Exchanges, \$150,709,538; balances, \$4,197,065.

The Sub-Treasury to-day was debtor to the Clearing House \$614,127. The business of the Sub-Treasury for the week ended to-night includes receipts of \$15,837,453 and payments of \$17,527,969, leaving the general balance at \$172,612,849, against \$174,305,363 November 7, showing an apparent loss of \$1,692,514. But deducting from the payments \$1,348,000, and from the receipts \$550,000, for items which affect only its account with the General Treasury, its loss as affecting the banks is \$\$94,514. To-day's operations covered: Receipts, \$2,932,559; payments, \$3,789,751; with balances of \$169,011,586 coin, and \$3,601,263 currency.

The United States Treasury at Washington received to-day \$165,352 National bank notes for redemption.

The customs receipts were \$768,191, the in-

redemption.

The customs receipts were \$768,191, the internal revenue receipts \$499,238, and the miscellaneous receipts \$250,538.

To-day's Washington Treasury statement of cash on hand and deposits in bank compares with the figures of the last previous statement as follows:

Net gold on hand \$158,281,238 \$158,416,859 Inc. \$135,621 Net silver on h'd. 12,167,766 12,285,712 Inc. 117,946 4,894 850

Net cash bal'ce .. \$204.055,353 \$204,681,330 Inc. \$625,977 Net cash balves. \$204,055,353 \$204,081,330 Inc. \$625,977.

The market for the foreign exchanges was unsettled, and business was done at irregular and fluctuating rates. For cables and sight bills the market was firmer, but fair quotations for actual business were about as follows: Bankers' bills at \$4.79 and \$4.85 for long and short sterling respectively: French francs at 5.23.3-4 and 5.21.7-8; reichmarks at 94.1-4 and 95.1-8, and guilders at 39.1-2 and 39.3-4. THE FOREIGN MARKETS.

THE FOREIGN MARKETS.

In London British consols, under pressure of heavy sales for realizations to reinvest in other securities, declined 1-2 per cent to 93 5-8 for money and 9-16 per cent to 93 3-4 for account. The Bank of England gained £1,093,000 bullion on balance, the result probably of the remittance of the first half of the £2,000,000 recently borrowed from the Bank of France. In the open market money ruled at 6 per cent for discounts and at 5-1-2 per cent for balances. Bar silver was steady at 47 3-8d, per ounce English standard. American railways at the opening did no more than to respond to yesterday's closing home quotations. Of course they were all lower than London's yesterday's closing figures—and they afterward followed to-day's early further declines in the home markets, and therefore closed at the lowest prices of the day. Despite the publication of "special dispatches" concerning the financial situation in London and Southern Patagonia, which are particularly trustworthy, because of their American origin, the situation abroad is certainly improving. The Bank of England certainly would not have borrowed £2,000,000 from the Bank of France at 3 per cent if it could have discovered any method by which it could draw gold from the United States. At Paris French 3 per cents were easier after 95,20 at 94,97,1-2, and eight exchange on London rose to 25,39 francs to the £.

Notice To Holders of Floating Debt OF

# HOUSTON & TEXAS CENTRAL

The Central Trust Company of New-York has fixed and determined the amount of the pro rate share to be paid by holders of the floating debt of the Houston and Texas Central Railwey Company in order to entitle them to their proportionate there of the stock of the reorganized company under Article Vinth of the Houston and Texas Central Reorganization

Ninth of the Houston and Texas Central Reorganization Agreement, dated Dec. 20, 1887, to be 97 6-10 cents on each dollar of their respective holdings of said floating debt, and prescribes the 17th day of November, 1890, as the date on or prior to which said payment shall be made.

Notice is hereby given to holders of said floating debt of the Houston and Texas Central Railway Company that they may on or before the said 17th day of November, 1890, provide and pay to the undersigned the amount payable by said floating debt holders under the ninth article of the said Reorganization Agreement, as so fixed and determined.

The same must be paid on or before Nov. 17, 1890, in order to entitle holders of said floating debt to their proportionate amount of the stock of the reorganized company under said ninth article, or to any interest therein.

Dated, New-York, Oct. 21, 1890.

Dated, New-York, Oct. 21, 1890.
CENTRAL TRUST COMPANY OF NEW-YORK,
by F. P. OLCOTT, President.

The city of Helena is located in the beautiful

The city of Helena is located in the beautiful Prickly Pear Valley; is substantially built of stone and brick, with good hotels, churches, schools and all modern conveniences of life. The society is exceptionally high class, having more than the average number of educated and intelligent people.

As a place of residence it is unequalled. It can be reached by luxurious trains daily, with through dining cars, on the Northern Pacific and Great Northern Railways from St. Paul and Minneapolis, or from Kansan City, via Union Pacific Railread. Low rate round trip tickets.

Montana has dozens of broad valleys so fertile with the deposits of ages that farmers find in them a paradise of productiveness and a home market for all yield.

Greatest of all advantages of Montana is the wonderfucilmate. The warm winds of the Pacific Ocean modify the temperature to the degree which affords the highest physical comfort. The sir is so full of ozone and so exhibitating in its effects that the continued existence of disease is an improbability.

bright sunshing days and dry atmosphere remedies which soon drive away their worse symptoms, and a quick increase of appetite and flesh indicates an early return of health,
